Teaching for International Society: Design education program, plan education sessions and curriculums

- **Chair of the Cross Cutting & Emerging Technologies Table in ISMRM Education Committee 2018-2021**
 - Established the ISMRM Complimentary Online Education Program called '[MR Academy](#)', Reviewed over 750 courses and labeled key tags to each course in nice main topics.
 - As the Chair of the Cross Cutting & Emerging Technologies table, I led a team of four members to 1) design five top educational courses in [Physics & Engineering](#) and [Machine Learning in MRI](#) categories, 2) define education difficulties and course objectives, 3) design quiz for each education course, 4) identify additional 110 education courses in the CCET category and design tags for each course
- **ISMRM Education Sessions Planning Committee 2023**
 - Organized two 4-hour educational sessions, for each session I had to:
 - 1) devise a session title, specify the skill level, provide a session overview, identify the target audience, define the educational objectives;
 - 2) create six talks that align with the session objectives, invite six primary speakers, six alternative speakers, two primary moderators and two alternative moderators.
 - 3) ensure a balanced representation of speakers' backgrounds in terms of their region, gender and degrees.
- **Outstanding Teacher Award in 2018 by ISMRM**
